

Aeron®

Iconic design

- In the permanent collection of MOMA in New York

3 sizes

- A, B and C sizes
- Each offers same options and is same price
- Fit more worker sizes and shapes, from 1st percentile female to 99th percentile male
- Dispenses with need for a sliding seat

Pellicle

- Unique material (Hytrel) developed and patented by HM (approx 80% elastomeric / 20% polyester)
- Woven synthetic with 2-way stretch, conforms to body shape, distributes weight evenly
- Supports body in all postures, superb comfort
- Prevents bottoming out, or hammock effect
- Aeration: air flow through Pellicle maintains user's skin at room temperature
- 3 patterns – Classic, Wave, Tuxedo, in choice of colours

Kinemat tilt (*Kinesis = motion, Greek*)

- Echoes body's pivot points (ankle, knee, hip) so chair moves naturally, through various seated postures
- Back is supported throughout range of chair's movements

PostureFit

- Contoured support to lower back – below beltline
- Maintains pelvis rotated forward to anatomical position similar to standing
- Prevents slouching which is cause of strain
- Continues to support lumbar region
- Reduces backache, headache, fatigue, improves breathing and circulation
- Promotes healthy posture

Adjustments

Standard

- Seat height: one of widest ranges available on task chairs, from 365mm (A size) – 530mm (B and C)
- Tilt tension: controls resistance felt when leaning back; uses spring tensions rated for 3 chair sizes, to match body heights and weights

Optional

- Forward tilt: adjusts seat angle 5° forward
- Tilt limiter: limits range of recline, from vertical to full tilt at increments
- Lumbar support: pad adjusts vertically 115-250mm and forward 20-30mm
- Arm height: adjust independently, 102mm range
- Arm angle: pivot independently 15° inward and 17.5° outward to provide forearm support
- Jacket hanger: attaches to back of chair

Environmentally-efficient

- Cradle-to-Cradle certified by McDonough Braungart Design Chemistry
- 66% from recycled sources
- Uses recycled aluminium and polymers
- 94% of the chair is recyclable

Value

- Warranty: 12 years chair, 5 years Pellicle, 3 years gas lift – in 24 hour use
- Tested for 24-hour use by person weighing up to 150kgs. HM will certify for up to 150 kgs (300lbs)
- Standards conformance
- Fits all workers, no need for special products
- One chair for all functions
- Extended life - less replacement
- Employee health – Aeron has Ergonomics Excellence Award from FIRA
